Company Description

ActiTech has experience in design, blending, filling, assembling, and packaging as well as distribution services for natural and organic personal care products.

From our 600,000 square foot state-of-the-art facility in the heart of Texas, we're best known for helping discriminating companies create innovative beauty products to succeed in an increasingly competitive marketplace. We also specialize in contract services for certified organic beauty products - certified both by QAI (Quality Assurance International) and TDA (Texas Department of Agriculture) to the NOP regulations.

ActiTech has maintained the lead in this continually evolving industry through progressive management, innovation, cutting-edge technology and dedicated service. Our FDA Registered facility manufactures under the highest standards of quality control, in compliance with current Good Manufacturing Practices (cGMP). Our knowledgeable staff can provide assistance in product development, including product formulation, package labeling, design and product or packaging testing.

Our team and facility can supply the full spectrum of Microbiological Testing, including Antimicrobial Effectiveness Testing, Accelerated Stability Testing and Challenge Testing so that you can take comfort in knowing that your products are safe and stable.

ActiTech is ISO9001 Compliant and works hand-in-hand with our customers across the world to deliver every advantage in an increasingly competitive marketplace.
