Company Description

Active Organics is dedicated to the research, development and production of cutting edge natural performance ingredients and botanical extracts since 1981.

Operating from 120,000 square feet in a state-of-the-art manufacturing facility in Texas, Active Organics is one of the nation's most trusted suppliers of natural botanical extracts to some of the world's most recognized cosmetic brands - in fact some of the most fashionable products and treatment methodologies on the market today result from botanical extracts pioneered at Active Organics.

As one of the industry's pioneers in anti-aging ingredients, Active Organics is recognized around the world for its clinical research as well as industry leading efforts to develop extracts made from exotic mushrooms and Aloe Vera. On any given day the company is working to process extracts from more than 1000 plants, fruits, vegetables, herbs and more.

Grounded in solid, methodical research and rigorous quality procedures, Active Organics is also certified to process ingredients meeting the stringent requirements of the USDA Certified Organic program. ISO 9001 certified, a skilled and passionate staff work alongside.
